### PROFESSIONAL SUMMARY

Industrial designer and 3D product visualization lead with 7+ years of experience creating photorealistic product imagery, animation, packaging visuals, and launch assets for international e-commerce and DTC brands. Top Rated on Upwork with \$80K+ earned, 100% Job Success, 140+ projects delivered, and 100+ clients worldwide. Combines art direction, precise modeling, material development, lighting, post-production, and reliable remote client leadership.

### CORE EXPERTISE

**3D Production:** Product modeling, CAD cleanup, photorealistic rendering, animation, materials, texturing, lighting, colorways, exploded views

**Commercial Visuals:** Amazon and Shopify imagery, hero shots, lifestyle scenes, packaging mockups, launch campaigns, advertising production

**Tools:** Blender, SolidWorks, Fusion 360, Adobe Photoshop, Illustrator, After Effects

**Leadership:** Art direction, reusable asset systems, client discovery, scope management, feedback cycles, production prioritization, quality control

**Digital Differentiator:** Web design, Next.js, Shopify, Framer, Tailwind CSS, responsive product experiences

### PROFESSIONAL EXPERIENCE

#### Co-Founder & 3D Product Visualization Lead | Product Hangar

Apr 2020 - Present

Córdoba, Argentina | Remote

- Lead art direction and end-to-end 3D production for consumer electronics, lighting, packaging, supplements, cosmetics, home products, and industrial products.
- Create product models, materials, lighting systems, animation, post-production, and final visuals for Amazon, Shopify, advertising, packaging, booths, and launches.
- Build reusable asset systems for product catalogs, variants, and recurring campaigns while maintaining consistent brand and visual standards.
- Collaborate directly with international clients and agencies, managing briefs, feedback, priorities, timelines, and final delivery.

#### 3D Product Visualization Specialist | Upwork

Jan 2020 - Present

Remote

- Top Rated freelancer with \$80K+ earned, 100% Job Success, 140+ completed projects, 100+ clients, and multiple repeat-client relationships.
- Produce hero images, lifestyle scenes, color and material variants, exploded views, product animations, packaging renders, and launch-ready visual systems.
- Support both one-off product launches and ongoing production pipelines for brands, manufacturers, and creative agencies.

#### Co-Founder | BEAM Agency

Jan 2021 - Apr 2025

Remote

- Led 3D visualization projects for consumer products in e-commerce, including creative direction, client communication, Amazon-optimized imagery, and final visual delivery.

#### Product Manager | Freelanders

Jan 2024 - Apr 2025

Remote

- Coordinated development, visual design, branding, and 3D content across creative teams and clients for product presentations and launches.

### SELECTED CLIENT WORK

**Monster Vape Labs | Blender / Adobe CC** - Produced 30,000+ individual renders across hundreds of distinct products and multiple product lines, including devices, bottles, packaging, POS displays, and trade-show booth visuals.

**Numera Lighting | SolidWorks / Product Development** - Contributed to technical SolidWorks modeling, product design decisions, production drawings, and isolated and in-context renders across an architectural lighting catalog.

**Craftd, Friday & Fused | Product / Electronics / Packaging** - Modeled and rendered kitchen products, electronics, and supplement packaging across finishes and color variants.
